

CRYSTAL BROCK

Software & Cybersecurity Specialist

Expected BS in Cybersecurity (2026) | NSLS Advanced Leadership | Spanish - A2 Proficiency

PROFESSIONAL SUMMARY

Technically driven emerging professional with a background in Computer Science and a focused specialization in AI Development and Security Engineering. Expert at dismantling complex technical vulnerabilities to implement high-integrity software solutions and robust defense architectures. Proven track record of operational reliability with a hands-on approach to Full-Stack Development, Automated Threat Detection, and Secure System Configuration. Dedicated to building resilient, privacy-first environments through proactive code analysis and technical imagination.

SKILLS

Development & Automation

- ❖ Python & Java
- ❖ HTML5 / CSS3
- ❖ It Automation
- ❖ Scripting (Python, Bash)
- ❖ Cybersecurity Maturity Assessment

Security & Defense

- ❖ System & OS Hardening
- ❖ Application Security
- ❖ Threat Identification
- ❖ Network Defense
- ❖ Basic SQL

Cloud & Data

- ❖ AWS - Cloud Fundamentals
- ❖ SQL & Data Modeling
- ❖ AI/LLM Implementation
- ❖ A-2 Intermediate Spanish

EDUCATION

Southern New Hampshire University – *BS-Cybersecurity*

Expected May 2026

- ❖ System Security
- ❖ OS Security
- ❖ IT Automation
- ❖ Application Security
- ❖ Enterprise Security

National Society of Leadership and Success (Sigma Alpha Pi) – *Advanced Leadership*

- ❖ DISC-Optimized Technical Leadership
- ❖ Iterative Problem-Solving & Implementation
- ❖ Strategic Resilience in Systems Architecture

Pulaski Technical College – *IT Systems*

North Little Rock, AR

- ❖ Cisco network routing
- ❖ COMPTIA A+ certification prep
- ❖ IT Essentials I and II

Google Professional Certificate – *Python for Automation*

- ❖ Python
- ❖ SQL

Professional Organizations

- ❖ National Society of Leadership and Success (Sigma Alpha Pi)
 - An invitation-only leadership society focused on strategic goal-setting and cross-functional collaboration, where I completed advanced training in design thinking and DISC-based interpersonal management.
- ❖ Alpha Sigma Lambda
 - An honor society recognizing the academic excellence and leadership persistence of non-traditional students, awarded for maintaining a high GPA while balancing rigorous cybersecurity coursework with professional development.

EXPERIENCE

Professional Driver, Tractor-Trailer — *Various companies*

- ❖ Drive a tractor-trailer
- ❖ Deliver freight safely and on time
- ❖ Maintain compliance with all government regulations
- ❖ Operate proprietary computer systems for logistics and load tracking.
- ❖ Track and submit computerized requests for both preventative and emerging maintenance issues.

AT&T, Little Rock, AR — *Customer Service Agent*

- ❖ Navigate multiple proprietary systems to meet customer needs
- ❖ Follow all data security protocols and ensure customers' data is protected
- ❖ Provide introductory information to new customers
- ❖ Ensure that customers are satisfied with products or services
- ❖ Inform customers about additional products or services that may meet their needs
- ❖ Determine the quickest, most effective ways to answer a customer's questions or resolve their issue
- ❖ Escalate queries and concerns appropriately as necessary
- ❖ Troubleshoot common issues with customers' phones or service
- ❖ Work with a team of other CSRs and departments to find appropriate solutions to customer issues.
